The 360° Evolution

Eppendorf Combitips advanced®

Eppendorf Combitips advanced®

Time for a New Original!

The invention of the Multipette and the Eppendorf Combitips marks a milestone in the field of Liquid Handling! Executing long pipetting and dispensing series is remarkably simpler and faster. With innovative sensor technology for automatic Combitip recognition, the Combitips plus/Multipette system has become an indispensable tool for every laboratory.

The increasingly high demands of modern laboratory work have also heightened the requirements for a high-precision dispensing tip. Our experts have thoroughly optimized the Combtips using sophisticated engineering. The result: a revolutionary 360° evolution! A completely new standard in dispensing tips.

The »Combitips« principle

- > Positive displacement principle (comparable to a syringe)
- > High-precision dispensing regardless of the density and viscosity of the liquid
- > Prevents aerosol contamination with hermetically sealed piston for secure dispensing and provides protection from radioactive and toxic substances
- > Quick dispensing of long series with precise, repeated dispensing of identical volumes (with the Multipette)

Unmistakable Down to the Last Detail

Intelligent packaging

with the redesigned dispenser box (for »Eppendorf Quality« and PCR clean) with extricable chute, Combitips advanced are always within reach. Portioning in 4 bags (25 pcs. each) ensures dust-free storage.

Unmistakably Eppendorf

The new Eppendorf Combitips advanced also feature the characteristic Eppendorf 3D design on the upper rim of the Combitip, allowing you to easily and confidently recognize the Eppendorf Original!

A perfect team

Whether Multipette 4780, Multipette plus, Multipette stream or Xstream – the Combitips advanced are optimized for all Multipette models to create the perfect connection!

Always easy to reach

The new Combitip Rack features trouble-free and single-hand operation during dispensing work. The rack holds up to 8 Combitips advanced in sizes ranging from 0.1 mL to 10 mL. The transparent tray allows for the sizes of the Combitips to be easily identified using the color coding.

Variety and selection

With 9 volume sizes (0.1 mL to 50 mL) and 3 purity grades (Eppendorf Quality, PCR clean and Eppendorf Biopur) you will always find the perfect Combitip for your application! The »Biopur« tips are individually blisterwrapped and feature an access tab which makes them easier to open, even with gloves!

25 mL		+	+			+	+	+
50 mL	_	+	+	_	_	+	+	+

 $[\]pm$ = improved compatibility compared to the Combitip plus generation

The Third Dimension of Tip Technology

Multipette connection

Automatic Combitip recognition and volume calculation

Ergonomic design

Unique funnel geometry prevents damage to gloves and ensures comfortable handling

Individually color coded

Quick identification of the desired Combitips facilitates the workflow (color coding is also visible on packaging!)

Elongated tips (for 2.5 mL, 5 mL and 10 mL)

Complete emptying of all common tubes prevents sample loss (see table on page 4)

Optimized graduation

Visibility of liquid volume using optimized graduations

Made of virgin polypropylene.

Free of slip agents, biocides and plasticizers.
