

Simple, Central, Smart

The Eppendorf CycleManager X50

Simple, Central, Smart

Eppendorf CycleManager X50

The new CycleManager X50 offers a comprehensive solution to support the entire PCR workflow with features like booking schedule and maintenance management combined with an intuitive, versatile and state-of-the-art software operation. Control up to fifty Mastercycler® X50 eco modules centrally from your office PC. Arrange instruments in groups to run them in parallel and get notified by email when your PCR is completed! In addition, the Mastercycler X50 eco modules are offering a status display at the device itself to identify the current status of the instrument direct and easy at the device.

The CycleManager X50 is the perfect tool for high-throughput standardized protocols where reproducibility is paramount.

- > Individual, simultaneous or grouped control of up to fifty Mastercycler X50 eco modules
- > Maintenance date reminders to ensure unverified cyclers are not used
- > Central management of protocols, log files, user rights and booking schedules

Improve Speed and PCR Results

Amplify your PCR processes!

The CycleManager X50 allows you to multiply your reactions by managing up to fifty cyclers. Repetitive copying of PCR parameters, trying to find an available cycler, or even checking the status of your current runs on multiple cyclers is all a thing of the past. To further improve the efficiency of your PCR workflow, Eppendorf offers a set of products:

- > **Mastercycler X50:** Very fast heating/ cooling rates to shorten the overall runtime
- > **Fast PCR consumables:** Faster transfer of heat from block to reaction results in higher yields
- > **Manual pipettes and automated pipetting systems:** Master mix and reaction set-up with highest precision

Ordering information

| Description | International Order no. | North America Order no. |
|---|-------------------------|-------------------------|
| CycleManager X50 (software) | 6349 000 014 | 6349000014 |
| Mastercycler® X50s (silver block) | 6311 000 010 | 6311000010 |
| Mastercycler® X50i (silver block, eco module) | 6301 000 012 | 6301000012 |
| Fast PCR Tube Strips with flat caps | 0030 124 910 | 0030124910 |
| Research plus 3-pack (Option 1) | 3123 000 900 | 3123000900 |

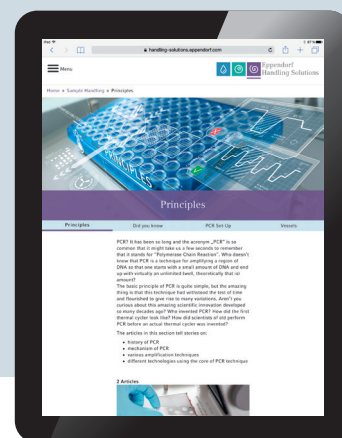

Eppendorf Handling Solutions

Are you interested in tips and tricks for your daily lab work?

The »Eppendorf Handling Solutions« online sphere is the place to go to find information on the most diverse topics from the areas of Liquid Handling, Cell Handling, and Sample Handling.
